

North Carolina Registry of Interpreters for the Deaf

ALD 101: Connecting the Dots .2 Professional Studies CEUs

Workshop Description: (Educational Objectives and description)

This workshop is designed to inform interpreters about assistive listening devices.

Presenter: (Presenters Bio)

Jeff Campagna is the Creative Director for MED-EL Corporation, with over 20 years experience in creative leadership for advertising/marketing agencies. As a cochlear implant user, he is very active with the hearing loss community -- providing counseling and support to adults, professionals, parents, and children with hearing loss. One of his major areas of support has been sharing information and experiences with various assistive listening devices -- for schools, home, and office environments. Jeff's personal journey with his progressive hearing loss (discovered at age 4) provided a great backdrop -- and impetus -- to garner knowledge for better listening tools and to share them with others.
